## Spreading the Good News with *Good News Today*

### *Good News ... Our Own Station on Truth.FM!*

 In addition to our current television and radio station outlets, and our broadcasts available on Vimeo, at our web site, and via our app, *Good News Today* now has its own 24/7 *Truth.FM* station. *Truth.FM* serves the needs of churches of Christ all over the world by spreading the gospel using the internet, as it builds, operates, and maintains internet radio stations for congregations and mission works.

*Truth.FM* helps local churches evangelize their communities and edify their memberships using sound gospel teaching from a variety of sound brotherhood sources. We are pleased that *Good News Today* is now counted among these reliable sources of gospel teaching.

Each *Truth.FM* station uses “station IDs” airing at the beginning of every hour. These give the name of the station and the local congregation who owns the station, its location and contact information. This process assures the station’s listeners become directly connected to the church launching that station.

In addition to station IDs, the congregation can also promote events, such as gospel meetings, VBSs, etc. This increases the visibility and value of the church’s other labors.

*Truth.FM* is unique, providing a customized station for each work included in its listing. It is based on the same model as *House to House*, *Heart to Heart*, where the tool is available to many congregations, but the local congregation is more visible to the recipient. *Truth.FM* aids in reaching individual communities every day with the gospel. It also assists overseas works by providing an internet radio station to help evangelize local populations in their own languages. Currently, there are *Truth.FM* stations serving Scotland and Hungary and, soon, hopefully, stations in India, China and other parts of the world.

We are pleased *Good News Today* now will have its own station powered by *Truth.FM*. We are thankful to this good work for aiding in the expansion of our audience. Be sure to visit [www.Truth.FM](http://www.Truth.FM) to learn how your congregation can have its own internet station, and download the *Truth.FM* app to your Smart phone.
